

ACT PRICE SIGNS FOR GASOLINE STATIONS

Digit heights of 140, 200, 260, 310 and 410mm are standard, number of sorts can be also only 1, we produce the displays as single or double side unit, with housing or without case for mount it in an other housing.

For mounting on a pole, on the wall...

We can deliver it with red, orange, yellow, blue, green or white leds.

ACT fuel price signs come in different digit sizes and colours. This allows you to visualise the exact prices quickly and easily at any time.

Our price signs are operated via a customised software interface or by an keyboard. A direct link to the pump control system is also possible.

Basically our displays are realized with about 3000mcd ultrabright AlInGaP II leds for absolute good readable also under direct sunlight. The brightness intensity will be automatically dimmed in 256 steps according to the daylight level.

Exact housing size and fixed lettering can be tailored to suit requirements. Also in combination with an time/temp. display or single line sign possible.

We have also for your application the right solution. Our large assortment is your advantage - be well-advised by us!
